---

## EDUCATION

---

UNIVERSITY OF NORTH CAROLINA AT GREENSBORO — Greensboro, NC  
**Bachelor of Arts in Economics**, August 2005 to August 2010

---

## WORK EXPERIENCE

---

Cardno ENTRIX – New Castle, DE

Staff Economist – October 2010 to Present

- **Data Management & Analysis**
  - Designed sampling plans used in count studies for Natural Resource Damage Assessment (NRDA) and recreation studies
  - Found solutions to meet the data needs of a project, including developing databases for data entry and storage, and formatting and outputting data to meet the client's needs
  - Managed databases, including conducting data entry, data cleaning, updating data, and validating data
  - Analyzed data, including generating general statistics and tables, developing and running models, and building spreadsheet toolkits for client to output data and model results
- **Technical Economic Support**
  - Reviewed and revised statistical accuracy of documents prepared by or for clients
  - Designed and conducted surveys to elicit public opinion and knowledge of willingness to pay for ecosystem services
  - Assisted in the construction of an analytical framework for quantifying the value of ecosystem services related to client's industry
  - Developed customized economic spreadsheet toolkit that provided clients with the ability to value ecosystem services
- **Project Management**
  - Managed personnel, including remote field work teams, office data entry teams, and junior level economists
  - Provided quality assurance and quality control that data met collection and client's criteria
  - Presented data results to clients, including drafting memos, reports, and slideshows used in litigation support for NRDA

---
